The following are the objectives which this Club honors and abides by:

To encourage and promote the breeding of pure-bred Cocker Spaniels and to do all possible to bring their natural qualities to perfection:

To urge members and breeders to accept the standard of the breed as approved by the American Kennel Club as the only standard of excellence by which Cocker Spaniels shall be judged:

To do all in its power to protect and advance the interests of the breed by encouraging sportsmanlike competition at dog shows, obedience trials and field trials.

To conduct sanctioned and licensed specialty shows, obedience trials, and field trials under the rules of the American Kennel Club.

Reminder notices for your membership dues are included with this issue. Please remit your dues to the Club Treasurer, Linda Praznik.

Christmas Dinner Chairperson

It's that time again when we're looking for a volunteer to coordinate our annual

December event. Please contact Julie if you are interested in setting up our Christmas Dinner Meeting and Gift Exchange!

Important Notice—Please Beware

Cocoa Mulch, which is sold by Home Depot, Foreman's Garden Supply and other Garden supply stores, contains a lethal ingredient called "Theobromine".

It is lethal to dogs and cats. It smells like chocolate and it really attracts dogs. They will ingest this stuff and die. Several deaths already occurred in the last 2-3 weeks.

Just a word of caution -- check what you are using in your gardens and be aware of what your gardeners are using in your gardens. **Theobromine** is the ingredient that is used to make all chocolate -- especially dark or baker's chocolate -- which is toxic to dogs. Cacao bean shells contain potentially toxic quantities of theobromine, a xanthine compound similar in effects to caffeine and theophylline.

A dog that ingested a lethal quantity of garden mulch made from cacao bean shells developed severe convulsions and died 17 hours later. Analysis of the stomach contents and the ingested cacao bean shells revealed the presence of lethal amounts of theobromine.
